

Specifications

Application Type

Application	Public Transport Protection
Interior or Exterior use	Interior Exterior

Adhesive & Liner

Adhesive	Permanent, solvent based adhesive
Adhesive Composition	Solvent-based acrylic
Adhesive colour	Clear
Adhesive Type	Pressure-sensitive
Removability	Permanent
Material used as liner	120g/m2 kraft paper
Liner Colour	White

Temperature Resistance

Minimal Temperature Resistance	-55°C
Maximal Temperature Resistance	90°C

Dimensions

Thickness	25µ
-----------	-----

Product Storage

Shelf Life	s 2 years and should be applied within 2 years of the receipt of film if unprocessed. Processed film should be applied within 1 year of processing and within 2 years of receipt of the film.
Storage & Transport conditions	Below 38°C

Application Temperature

Minimum Application temperature	10°C
Maximum Application temperature	38°C

Surface Type

Surface Type	Flat surfaces Slightly curved surface
