

3M® Envision® Print Wrap Film LX480mC is versatile enough to wrap everything from vehicles to trailers to boats to textured buildings.

It is a 50 micron white non PVC film with a pressure activated, repositionable, removable adhesive. This film is an environmentally friendly option for a greener solution.

Ideal for long term graphic applications on smooth surfaces, it is also suitable for short term wall graphics on moderately textured surfaces. 3M® 480mC is flexible, highly conformable over compound curves, corrugations, deep channels and rivets, and requires less heat during application than vinyl films.

The product has non-visible air-release channels using Comply™ adhesive with micro technology for a smooth visual appearance, superior performance and an even easier, faster and better looking installation.

- Use LX480mC with Latex Inkjet Inks
- Use SV480mC with Solvent Inkjet Inks
- Use LX480mC or SV480mC with UV Inkjet or Screen Print Inks
