

# MACmark - MACal 8900 Pro

A unique intermediate film with up to 3-4 years outdoor life, featuring a unique removable, solvent based, acrylic adhesive. Fire certification M1. Excellent removability.

A unique intermediate film with a wide range of colour choices and up to 3-4 years outdoor life. The removable acrylic adhesive allows removal of vinyl from common surfaces without leaving any adhesive residue for up to 2 years after application. This material's M1 fire certification and excellent removability makes it an excellent choice for many medium-term outdoor and indoor applications on flat surfaces.

## KEY FEATURES
