

# Mactac Cleaner

## **A high performance cleaner designed for cleaning various types of surfaces prior to self-adhesive film application**

Mactac Cleaner removes the most common residues (such as dirt, wax etc.) as well as everyday pollution, in order to optimize application of the film onto the substrate. Packaging has been designed to be user-friendly and minimize plastic waste thanks to the refill canister: Mactac Cleaner is available in bottles of 975ml, and in 4-litre refill canisters with a funnel for easy pouring.

### KEY FEATURES

- **\*Effective surface cleaner, allowing optimal surface preparation prior to application.**
- **\*Tested for compatibility with the most commonly available Mactac products.**
- **\*Optimized packaging : a handy format 975ml bottle and a 4-litre refill container that reduces plastic waste.**

### SPECIALLY DESIGNED FOR

- **\*cleaning various types of surfaces prior to self-adhesive film application**
