

# Mactac ColourWrap Series

Full car wraps demand the best possible flexibility and ease of use. The Mactac ColourWrap Series offers - in cast quality - 50 different coloured wrapping films. That includes gloss, gloss metallic, matt and matt metallic finishes.

Full car wraps demand the best possible flexibility and ease of use. The Mactac ColourWrap Series offers - in cast quality - 50 different coloured wrapping films.

That includes gloss, gloss metallic, matt and matt metallic finishes. It all means the 3D-conformable cast performance you need for vehicle wrapping and a head-turning result.

You can also use these films for boat customisation.\*
