

MACmark - MACal 9300 Pro

Long term permanent marking films - 7/8 years. Available in 60 colours - Fire certification M1

A versatile polymeric PVC film designed for permanent signage and marking applications, with a flexible gloss facestock that offers good conformability on simple curves. The high-performance permanent acrylic solvent adhesive, along with a white Kraft protector, ensures very good stability and lay-flatness. This material has M1 fire certification, and outdoor durability is up to 8 years.

Available in 60 colours (56 gloss and 4 matt), MACal 9300 Pro is an outstanding choice for fleet marking, window graphics and signage.
