

Mactac Installation Liquids

Mactac offers three different installation liquids designed to support applicators before, during and after the self-adhesive film application process:

Mactac Cleaner

Mactac Application Fluid

Mactac Remover

Mactac Cleaner

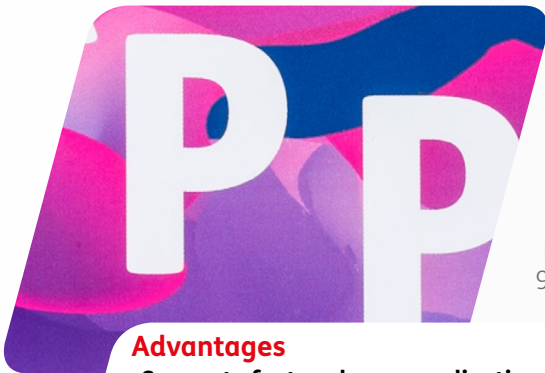

A high performance cleaner designed for cleaning various types of surfaces prior to self-adhesive film application. Mactac Cleaner removes the most common residues (such as dirt, wax etc.) as well as everyday pollution, in order to optimize application of the film onto the substrate. Packaging has been designed to be user-friendly and minimize plastic waste thanks to the refill canister: Mactac Cleaner is available in bottles of 975ml, and in 4-litre refill canisters with a funnel for easy pouring.

Advantages

- **Effective substrate cleaner, allowing optimal surface preparation prior to application.**
- **Tested for compatibility with the most commonly available Mactac products*.**
- **Optimized packaging : a handy format 975ml bottle and a 4-litre refill container that reduces plastic waste.**

Mactac Application Fluid

Mactac Application Fluid is designed to support the wet application of various types of Mactac materials on glass surfaces. Recommended for use amongst others with Print Vinyl, JT5829, Macpoly, and Glass Decor Series. This fluid has been tested for compatibility with the most commonly available Mactac products for glass applications*. Packaging has been designed to be user-friendly and due to refill canister minimize plastic waste: Mactac Application Fluid is available in bottles of 975ml and in 4-litre refill canisters with a funnel for easy pouring.

Advantages

- **Supports fast and easy application of graphics onto glass surfaces.**
- **Ready-to-use solution: no mixing of components required, ensuring reliable performance every time.**
- **Provides a good balance between initial tack and ability to reposition material before final application.**
- **Optimized packaging design: available in handy format 975ml bottle and a 4-litre refill container that reduces plastic waste.**

Mactac Remover

Mactac Remover is a powerful solution designed to remove adhesive residue from substrates. Its specific formulation allows outstanding and rapid cleaning of surfaces following the removal of self-adhesive products. The product is mainly used on painted steel but can effectively clean other surfaces such as glass. For a new substrate, it is recommended to always test the remover on an inconspicuous area prior to use.

Advantages

- **Effective adhesive remover, for use after self-adhesive film removal.**
- **Easy and quick removal of adhesive residue.**

* For more information about which Mactac products are compatible with the Mactac Cleaner and which wet application of Mactac materials on glass surfaces are supported by the Mactac Installation Fluid, please contact your sales contact person.
