Premium PE coated photo paper for poster and photo applications

This PE coated, glossy photo paper is ideal for all high gloss advertising and photographic prints for indoor applications. In addition to its use with solvent ink printers, this paper also delivers outstanding results with latex and UV ink systems. Prints impress with high brilliance, a homogeneous gloss and quick drying times. The splashproof coating ensures a particularly durable and scratch resistant printed image. This high quality, stiff base paper also makes it possible to produce prints for long-term indoor use without lamination

## ADVANTAGES

- Excellent colour reproduction
- Homogeneous gloss in printed and unprinted areas
- High quality, stiff base paper
- Waterfast and durable surface finish
