

### **Professional film dispenser**

Heavy duty dispenser made of anodized aluminum with black coated steel side plates. Perfect for application tape or unwinding rolls of window film and vinyl. Especially for vinyl rolls with a 3" core.

#### **Available in 3 different sizes:**

- 500-SRS86 86 cm
- Push the roller guide quickly and easily into the slots provided.
- Perfectly finished end caps slide gently into the position slots. This stabilizes the donor even more.
- The dispenser comes complete with mounting brackets, screws and an Allen key. Just put it together and you're done.
- Corner brackets that can be fitted as required so that the dispensers can be "clamped" onto the table.
- The two aluminum roller guides allow you to unroll your vinyl or application tape either from above or from below.
- The stable dispenser construction enables the perfect unwinding of wide rolls of film, such as Carwrap films, without kinks or folds.
- The roller guides are made of anodized aluminum with a metal profile along their entire length to prevent sagging
- Rubber feet ensure that it sits firmly on the table and prevents damage. The dispenser can also be screwed to the table. A screw hole is provided for this purpose.
- Has a perfect and safe finish thanks to its coated, solid metal construction and rounded corners.
